10 1 **PRIOBOX**
Fire Resistant Batterie Box

Fire-resistant battery box for the storage of lithium-ion batteries. The advantages: chemically highly resistant surfaces inside and outside, accessible from underneath and favourable price. The battery box offers a fire resistance of 90 minutes.

Function

- Fire resistance 90 minutes: fire resistant
- EI 90/F 90 classification
- Certificate of an accredited material testing institute

Construction & Equipment

- Stable, tilt-resistant pull-out trays, adjustable
- Large bottom tray with mesh shelf
- Door closer with hold-open system and thermocouples for automatic door closing in case of fire
- Fire resistant ventilation penetration seals for air supply and exhaust air cabinet top
- Opening angle of the doors: 115°
- Clear opening width: 1330 mm

Material & Surface

- Standard surface CPL
- Non-combustible panel with surface coating, classified A2 - s1, d0
- Standard surface light grey, similar to RAL 7035, dark edges and chamfers

Options

- Recirculation attachment
- Exhaust air attachment
- Adapter for connecting the exhaust air attachment
- Fire-resistant cable bulkhead
- Doors or entire corpus in alternative RAL colours / surfaces, on request
- Delivery on pallet, assembly on site
- Aluminium folding tube - movable; D = 100 x 5000 mm; 5 m piece
- Tub floor
- Heavy duty floor for FBX90; dimensions H x W x D: 38 mm x 1413 mm x 850 mm
- Assembly on site by PRIORIT
